

## Grove Kit for Win10 IoT Core & Azure Platform

## PRODUCT DESCRIPTION

Grove Kit for Win10 IoT Core & Azure Platform is an IoT development kit that contains selected Grove modules designed to be used in projects with Microsoft Azure services.

Unlike the traditional Grove Starter kits, this kit does not concern with how to write hardware drivers or embedded development but helps you quickly understand and learn how to use Windows 10 IoT Core and Microsoft Azure services. To help, we wrote a guidebook for this Grove kit which includes five projects simulating separate scenarios.

## FEATURES

- A guide book for five scenarios
- Support Azure IoT Hub and Azure Functions
- Based on Raspberry Pi and Windows 10 IoT Core

## APPLICATION

- Smart Garden
- Smart Cup
- Enhanced project develops
- Electronics Learning
- Electronics knowledge educating

## SPECIFICATIONS

### PRODUCT MODEL

Model	None
-------	------

### PART LIST

GrovePi+	X1
----------	----

Grove - Temp&Humi Sensor	X1
--------------------------	----

Grove - PIR Motion Sensor	X1
---------------------------	----

Grove - Sound Sensor	X1
----------------------	----

**PART LIST**

Grove - Light Sensor v1.2	X1
Grove - Gas Sensor (MQ2)	X1
Grove - Button	X1
Grove - Relay	X1
Grove - OLED Display 0.96"	X1
Grove - 4 Digit Display	X1
Grove - Mini I2C Motor Driver v1.0	X1
DC Motor	X1
Mini Fan	X1
